# 2021 LOUISIANA TEACHER PREPARATION PROGRAM FACT BOOK

## INTRODUCTION

The creation of the 2021 Teacher Preparation Data Dashboards and Teacher Preparation Program Fact Book are two endeavors that are being voluntarily implemented to address the need to provide the public with access to outcome data about teacher preparation programs in Louisiana. The Teacher Preparation Data Dashboards provide a short summary of relevant data about individual teacher preparation programs in Louisiana. The Teacher Preparation Program Fact Book provides listings of data found in the individual data dashboards plus additional contextual data. All teacher preparation programs discussed in the Teacher Preparation Program Fact Book have voluntarily signed data agreements with the Louisiana Board of Regents and Louisiana Department of Education to share data about their candidates and to have aggregate level data reported to the public in the Teacher Preparation Data Dashboards.

Outcome data in the 2021 fact book pertain to 2018-19 program completers. Retention data have been provided for 2018-19 completers who taught in 2019-20. In addition, five-year retention data are provided for 2014-15 completers who taught each year through 2019-20.

Due to COVID, Compass teacher evaluations were not conducted during the academic year 2019-20 by school districts. In addition, achievement tests were not administered to students in Louisiana's public schools. Thus, three-year averages for Compass teacher evaluation data and value-added student growth data could not be calculated for this document.

Louisiana obtained permission from Teacher Preparation Analytics to use a structure called *2020 Key Effectiveness Indicators* (See Appendix A) developed by Michael Allen, Edward Crowe, and Charles Coble, co-partners of Teacher Preparation Analytics to develop the Louisiana Teacher Preparation Data Dashboards (<http://teacherpreparationanalytics.org/wp-content/uploads/2017/01/KEI-Guide-12-15-16.pdf>). This work was originally commissioned by the Council for the Accreditation of Educator Preparation.

**PERCENTAGES OF PROGRAM COMPLETERS PASSING PRAXIS  
ASSESSMENTS FOR TEACHER LICENSURE**

**UNDERGRADUATE PROGRAMS (2018-19)**

State law requires all undergraduate teacher candidates to pass an assessment approved by the State to be admitted to a teacher preparation program. All teacher candidates must pass the Core Academic Skills for Educators assessments to enter teacher preparation programs and must obtain the required cut-off scores that are required by the Board of Elementary and Secondary Education (BESE) for new teachers to obtain a license to teach in Louisiana. Teacher candidates may also obtain an ACT composite score of 22 or an SAT combined verbal and math score of 1100 or higher (New SAT) or 1030 or higher (Pre-March 2016 SAT) in lieu of the Core Academic Skills assessments. State law also requires undergraduate teacher candidates to take all remaining State licensure assessments (i.e., Praxis subject areas; Praxis professional knowledge) prior to graduation; however, the law does not require teacher candidates to pass the assessments. Individual universities have created policies that require all teacher candidates to meet all Louisiana teacher licensure requirements to obtain a degree in teacher education. Some universities allow students to appeal the university policy. Additional information about Praxis passage rates can be found on the following USDE Title II Report website that addresses the Higher Education Act: <http://title2.ed.gov> .

**UNDERGRADUATE PROGRAMS (2018-19)**

Effective January 1, 2017, BESE issued a new policy that required institutions to address new requirements for purposes of teacher preparation program approval. As part of the new requirements, teacher candidates were required to complete a One Year Residency instead of old requirements for Student Teaching. During 2018-19, institutions were encouraged by BESE to pilot the use of One Year Residencies. Thus, 2018-19 was a transition year for institutions as they either developed plans, piloted, or implemented One Year Residencies.

The Board of Elementary and Secondary Education (BESE) previously required teacher candidates to spend a minimum of 270 clock hours in student teaching, with at least 180 of such hours spent in actual teaching. BESE required that a substantial portion of the 180 hours be on an all-day basis. In addition to the student teaching experience, BESE stated that students should be provided actual teaching experience (in addition to observations) in classroom settings during the sophomore, junior, and senior years within schools with varied socioeconomic and cultural characteristics. It was recommended by BESE that pre-service teachers be provided a minimum of 180 hours of direct teaching experience in field-based settings prior to student teaching. Student teaching generally occurred during one semester with a student being supervised by an experienced classroom teacher. Information provided below identifies the actual number of clock hours required by each teacher preparation program prior to student teaching and during student teaching for candidates who were still completing programs being phased out.

**ALTERNATE PROGRAMS (2018-19)**

BESE policy that is being phased out allows institutions with alternate programs to offer one or both of the following options:

**Student Teaching:** Once coursework is primarily completed, candidates complete Student Teaching under the direct supervision of a certified teacher who is the Teacher of Record.

**Teaching Internship:** Candidates teach as the Teacher of Record while completing coursework and a one-year Teaching Internship. They also receive first-year support.

The information below is for institutions that offered the Student Teaching option that is being phased out.

## PERSISTENCE IN TEACHING IN PUBLIC SCHOOLS

Undergraduate and alternate program completers have the option of teaching in public schools in Louisiana, private schools in Louisiana, or schools in other states. It is not possible to track the retention of completers in private schools or out-of-state schools. The following charts identify only the number and percentage of a cohort of program completers in 2014-15 who taught in public schools in Louisiana during five years.

The numbers of undergraduate and alternate completers who completed teacher preparation programs in 2014-15 and taught in public schools in Louisiana in 2015-16, 2016-17, 2017,18, 2018, and 2019-20 are listed below and on the next page. **Completers who taught in private schools in Louisiana or taught in other states are not included below.**

## COMPASS AND VALUE-ADDED SCORES (2019-20)

### **MEANS AND EFFECTIVENESS LEVELS FOR COMPASS EVALUATION SCORES BY UNDERGRADUATE AND ALTERNATE PROGRAMS FOR FIRST AND SECOND-YEAR TEACHERS WHO TAUGHT IN 2019-20**

The Louisiana Department of Education states that Compass is Louisiana's educator support and evaluation system designed to provide all educators with regular, meaningful feedback on their performance (<http://www.louisianabelieves.com/teaching/compass>). Under this system, every teacher in public schools in Louisiana is evaluated annually using a four-tiered rating - Highly Effective, Effective: Proficient, Effective: Emerging, and Ineffective. The Compass evaluation score is based on achievement of student learning targets to generate the Compass Student Outcome score and observations by teachers' supervisors using the appropriate Compass rubric to generate a Compass Professional Practice score. The two scores are combined to generate the Compass Final Evaluation Scores that range from 1.00 to 4.00.

In previous years, Compass scores of new teachers have been linked to the teacher preparation programs that prepared the new teachers.

Due to COVID, Compass was not administered during 2019-20. As a result, Compass evaluation scores could not be reported in the 2021 Teacher Preparation Data Dashboards and are not reported in this document.

### **MEANS AND EFFECTIVENESS LEVELS FOR VALUE-ADDED SCORES BY UNDERGRADUATE AND ALTERNATE PROGRAMS FOR FIRST AND SECOND-YEAR TEACHERS WHO TAUGHT DURING 2019-20**

Value-added scores have previously been calculated by the Louisiana Department of Education for all teachers whose students are assessed for mathematics, social studies, science, and English language arts. The value-added scores examine the growth of learning of grades 4-8 students and link the students' growth in achievement to their teachers and the teacher preparation programs that prepared the new teachers.

Due to COVID, student achievement tests were not administered to students during 2019-20. As a result, value-added scores could not be reported in the 2021 Teacher Preparation Data Dashboards and are not reported in this document.
