October 24 @ noon: mandatory co-curricular presentation (for students)

November 12 @ noon: Blocked time for mentoring group meetings (you may choose to use another time)

The **2019 Retreat** will be held on **Wednesday and Thursday, June 5<sup>th</sup> & 6<sup>th</sup>, 2019**.

**Announcements/Reminders:**

OSPA Weekly announcements: Submissions will be made on a Google Form (link attached). Please have your submissions completed by 2pm each Thursday.

Co-curricular reminders: Faculty who wish to pair up to facilitate their groups for this first semester are welcome to do so at the link provided below. We have a couple of faculty looking for someone to pair with, so please check this out.

Photos: The ULM photographer will be here taking professional headshots for P1 students, faculty & staff on Wednesday, August 29. Faculty, staff and grad students will be from 10-10:50 and P1 students will begin at 10:50. She will not be doing action shots on this date but, if you need one, please mention it to her on that day.

Policy/Procedure updates: To all committees working on new procedures or changes for the 2018/2019 school year: Please let Michelle (Massey) White know ASAP that you will have changes or additions and when she can expect these. Also, please make sure information is correct on the Pharmacy Web page since many of these links are used in the handbook. Handbook changes go to Michelle White and please contact Marcia for any Web updates.

Update from Faculty Development:

Thursday 8/30/18, 12pm-2pm: Introductory and Intermediate Data Analysis for Faculty Session 1

- Everyone needs a laptop with SPSS installed prior to workshop.
  - o Contact Greg Andrews for the download & installation information for the software ASAP.
- Materials are posted in the Faculty Development Toolbox on Moodle. Review the following information prior to session 1.
  - o Skim these sections from *Online Statistics Education: An Interactive Multimedia Course of Study*.
    1. Graphing distributions
      - a. Stem and leaf
      - b. Histograms
      - c. Box plots

d. Describing Bivariate Data

i. Introduction to Bivariate Data (focus on scatter plots)

2. Summarizing distributions

a. Central Tendency

b. Variability

- o Review the table describing the scales of measure.
- o Watch the videos on Introduction to the SPSS Workspace and Importing Excel data to SPSS.

· All Co-Curriculum training materials that have been previously emailed are now posted in the Faculty Development Toolbox under a new heading labeled “Co-Curriculum.”

- o Dr. Brady recorded a mock session with the help of some P4 students. A link to the video is in the Toolbox.
