

Speech-Language Pathology Program Student Intervention – Remediation (CAA 4.3)

Responsible Executive:	SPLP Program Director, Clinic Director
Responsible Office:	SPLP Administration
Originally Issued:	July 2023
Latest Revision:	N/A
Effective Date:	July 1, 2023

I. Policy Statement

This policy is designed to provide guidance related to the principles of student intervention.

II. Purpose of Policy

Policies and procedures for identifying the need for clinical intervention for each student who does not meet program expectations for the acquisition of knowledge and skills in the clinical components of the program.

III. Applicability

This policy applies to all Graduate Clinicians, Clinical Instructors, and faculty.

IV. Definitions

N/A

V. Policy Procedure

Remediation is triggered if:

- A grade of C or lower is earned on any section of any grading criterion for any Clinical Instructor. [Practicum hours are forfeited for any semester during which a student earns a D or F.]
- A grade of "C" in any class (including SPLP 5076) automatically results in remediation. Practicum hours are forfeited for any semester in which a student earns a D or F.
- Academic remediation may last no more than one semester per class.
- A student may not leave campus for internship (SPLP 5086/SPLP 5081) without successfully resolving remediation.
- If the "C" is earned during the last scheduled semester of SPLP 5076, then the student will be required to complete an additional semester of on-campus clinic (SPLP 5076) to demonstrate proficiency in the areas judged to be weak.
- Clinical remediation may last no more than two semesters. Clinical remediation is not offered in the summer semesters. Therefore, if remediation is triggered in the Spring semester, the student is not able to register for SPLP 5076 or remediation until the Fall, which will delay completion of the program.
- A student who is in remediation for SPLP 5076 (Practicum Site I), must enroll in SPLP 5092 Clinical Remediation. The student is to consult with the Clinic Director regarding the procedures for enrolling in SPLP 5092.

VI. Enforcement

The Program Director, Clinic Director, and all faculty are responsible for enforcement of this policy.

VII. Policy Management

The Program Director, Clinic Director, and all faculty are responsible for implementation and administration of this policy.

VIII. Exclusions

N/A

IX. Effective Date

July 1, 2023

X. Adoption

This policy is hereby adopted on this 1ST day of July 2023.

Recommended for Approval by:

Approved by:

Holley Perry, Clinic Director

Dr. Judy A. Fellows, Program Director
